Checklist: Food product labelling checklist

Food labelling is one of the essential and mandatory process for your new food product. It should contain all the necessary information as prescribed by the guidelines of various regulatory bodies. In order to make that process easy the Food research lab has created a checklist so that there would not be ambiguity while you label your product. If you have any queries regarding your product or the labelling requirements do contact our team via <https://www.foodresearchlab.com/contact-us/>

INCLUSION	DETAILS	TICK
Name of your product		<input type="checkbox"/>
Ingredients used in your product		<input type="checkbox"/>
QUID		<input type="checkbox"/>
Net weight of the final product		<input type="checkbox"/>
